

The East African Energy Directory

YEAR
2018

A DIRECTORY FOR THE ENERGY SECTOR IN EAST AFRICA

The East African Energy Directory (EAED) is a detailed listing of energy sector and allied businesses in the East African region. The directory lists energy producers, their suppliers, logisticians, financiers, consultancies, policy and regulatory entities, lobbyists as well as large consumers with operation/interests in Kenya, Uganda, Tanzania, Rwanda, Burundi and Southern Sudan.

Key sub-sectors incorporated in the EAED includes petroleum (downstream and upstream), hydropower, solar, wind, geothermal, bio-fuels, bio-diesels and nuclear energy.

EAED is a product of Alison and Davis Group, a publishing company with head office in Nairobi, Kenya. The directory is a reference point for investors, professionals and technocrats with interest in the East Africa region. The directory's publisher has invested in extensive research, a highly qualified team and state-of-the-art technology to ensure accuracy and top quality reference resource. The directory listings are presented in a simplified style to ensure quick reference.
